Hubbell Metal Raceway

Hubbell Wiring Systems introduces a comprehensive and complete metal surface raceway product line that will be sold and marketed through Hubbell Wiring Device-Kellems and Hubbell Premise Wiring. The product line consists of six steel profiles and two aluminum profiles.

Hubbell addresses customer concerns for capacity, installation ease and aesthetics by implementing the following key features:

- UL Listed transition fittings allowing transition from Hubbell metal raceway to Wiremold®* metal raceway.
- Aesthetic and functional box features including patent pending “Hubbell Handi-Screw”.
- Larger capacity 750IV Series allows up to 3 Cat. 5,5e or 6 cables.
- Metal PlugTrak multi-outlet pre-wired steel raceway system has unique Hubbell designed and self-manufactured 15 AMP receptacles.
- 4000 Series has patent pending 70/30 divider, which allows greater expansion and room for datacom applications.
- 6750 Series offers the largest capacity while providing the end user with a lower profile than competition.
- Open system architecture capability through the use of extensive cover plates and bezels.

Hubbell Metal Raceway will satisfy your most demanding surface raceway applications for either power or datacom.

For more information, go to the completely redesigned Hubbell website www.hubbell-wiring.com/raceway.
